

Thenceamic Society.

Feb. 5, 1897.

The meeting on the 29th. of last month was conducted, as usual, in a very able manner by our worthy president.

Our secretary, although he is very funny, should remember that he spends much time in calling the roll which might be more profitably employed for the society.

The speeches on the Cuban Question were all very good, Mr. Harvitt's being especially so.

Our new Sergeant at Arms manifested his ability for his office on several occasions during the meeting. He is an excellent "equalizer."

D. Packer.

Critic.
