

State Normal School

Trenton, N. J., June 30, 1915.

This is to certify that Miss Lulu B. Clough took courses here in History of Education and School Management under my instruction. Her work in both subjects was excellent. She was industrious and conscientious and

showed intellectual ability
considerably above the average.
I believe she has the mind
and personality to make a
successful teacher.

Charles C. Hewitt,

Instructor in History of Education and
School Management.
